HubSpot Certified: Revenue Operations | Sales Hub Software

PROFESSIONAL SUMMARY

Results-driven and detail-oriented Business Operations professional with 4+ years of progressive experience across revenue operations, cross-functional project coordination, CRM administration, process improvement, vendor management, and performance reporting. Promoted to Business Operations and Revenue Coordinator at ProWeb Limited in recognition of consistent delivery and expanded operational scope. Certified in HubSpot Revenue Operations and HubSpot Sales Hub Software, with hands-on QA and UAT experience across major institutional digital platforms in Zambia. Demonstrated ability to design and implement scalable workflows, build data-driven dashboards, and coordinate complex projects across diverse teams in fast-paced environments. Committed to delivering operational excellence that drives business growth and organisational efficiency.

- Vendor & Supplier Relationship Management
- Sales & Marketing Pipeline Management
- QA Testing & Digital Platform Readiness
- Budget Tracking & Cost Management
- Stakeholder & Client Communication
- Microsoft Office & Google Workspace

WORK EXPERIENCE

Business Operations & Revenue Coordinator

January 2026 – Present

ProWeb Limited | Lusaka, Zambia

- Oversee group-level business operations across all ProWeb business units, ensuring alignment of operational standards, reporting structures, and process compliance across departments.
- Lead strategic operational reviews to identify inefficiencies, design process improvements, and implement scalable SOPs that support the company's continued growth.
- Own cross-functional project delivery from planning through execution — coordinating timelines, resource allocation, stakeholder communication, and documentation across Sales, Marketing, Product, and Engineering teams.
- Manage vendor and supplier relationships including contract negotiations, invoice processing, purchase order tracking, and payment follow-up across multiple business units.
- Produce executive-level monthly and quarterly performance dashboards and reports, delivering actionable insights that inform leadership's strategic planning and decision-making.
- Lead client re-engagement and outreach coordination during major platform updates, ensuring operational readiness and seamless communication across all touchpoints.
- Supervise revenue operations workflows including CRM pipeline management, deal automation, lead lifecycle tracking, and renewal coordination to reduce revenue leakage.
- Mentor junior operations staff and provide guidance on workflow best practices, tool usage, and documentation standards.

Revenue Operations Executive

September 2024 – January 2026

ProWeb Limited | Lusaka, Zambia

- Administered HubSpot CRM workflows including pipeline stages, deal automation, lead scoring, contact lifecycle management, and client onboarding sequences, maintaining data integrity across all business units.
- Built and maintained multi-unit dashboards tracking sales performance, marketing attribution, UTM campaign data, and funnel conversion rates, providing weekly and monthly insights to leadership.
- Aligned Sales and Marketing operations through standardised pipeline stages, lead handoff protocols, and campaign feedback loops, improving cross-team visibility and reducing revenue leakage.
- Designed and implemented automation workflows for deal follow-ups, renewal reminders, and onboarding triggers, streamlining operations across business units.

- Conducted comprehensive QA testing and UAT for CRM workflows, marketing campaigns, product listings, and digital platforms, producing detailed test reports before go-live.
- Assisted in preparation of tenders, bids, and proposals, maintaining tracking sheets and compliance documentation aligned to business objectives.
- Executed market and competitor analysis to support GTM positioning and product launch strategies, providing data-backed recommendations to leadership.

Operations Supervisor

February 2024 – August 2024

Wibrema Investments LTD | Lusaka, Zambia

- Managed day-to-day business operations across multiple concurrent workstreams, maintaining 100% adherence to project deadlines and consistent service delivery standards.
- Developed and enforced SOPs that standardised workflows, reduced operational errors, and improved team productivity across all shifts and functions.
- Delivered weekly performance and financial reports to senior leadership, enabling faster decision-making and reducing issue resolution time.
- Managed vendor negotiations, budget oversight, and procurement coordination, achieving measurable cost savings while maintaining quality and compliance.
- Documented transactions, contracts, and expenditures, maintaining accurate financial records to support planning and forecasting.
- Resolved 95% of client and operational inquiries within 24 hours through structured follow-up protocols, improving satisfaction and retention.
- Evaluated team performance, provided structured feedback, and implemented corrective actions to maintain high productivity and morale.

Assistant Operations Supervisor

March 2023 – February 2024

Wibrema Investments LTD | Lusaka, Zambia

- Supported daily operations coordination across Sales, Administrative, and Service Delivery teams, ensuring smooth workflow alignment and timely task completion.
- Monitored operational and commercial performance metrics, providing actionable insights to management to optimise processes and reduce inefficiencies.
- Maintained accurate records of client communications, contracts, and project milestones.
- Oversaw staff scheduling, task delegation, and mentorship of junior team members to strengthen overall operational capacity.

Operations Associate

January 2022 – February 2023

AkzoNobel Group (Dulux) | Lusaka, Zambia

- Supported day-to-day retail and manufacturing operations, assisting the operations team with workflow planning, task coordination, and operational readiness across shifts.
- Assisted in the implementation of operational plans for manufacturing and distribution projects, tracking progress against targets and flagging bottlenecks for resolution.
- Conducted inventory counts, maintained accurate stock records, and coordinated timely replenishment to prevent shortages and minimise disruption to operations.
- Applied leadership techniques and initiative to optimise daily functions, improving team task allocation and contributing to measurable improvements in service quality and workflow efficiency.
- Provided customer service support on the retail floor, addressing product inquiries and complaints professionally and escalating complex issues appropriately.
- Maintained accurate records of transactions, inventory movements, and operational activities, contributing to regular management reporting cycles.

KEY PROJECTS

Supergold Vending - Website & Operations Platform | *Project Coordinator & QA Tester*

- Coordinated end-to-end delivery of the Supergold Vending web platform, managing project timelines, documentation, and stakeholder communication between engineering and client teams.
- Conducted QA testing and UAT across the platform, identifying and logging issues, producing detailed test reports, and verifying fixes before go-live.

- Served as the primary liaison between the engineering team and the client, translating business requirements into actionable technical briefs and ensuring expectations were met at each delivery milestone.

ZCCM Investments Holdings Plc (ZCCM-IH) - Digital Platform | *Project Coordinator & QA Tester*

- Supported coordination and quality assurance of digital platform work for ZCCM-IH, one of Zambia's leading investment and mining sector holding companies.
- Conducted structured QA testing and produced detailed documentation of findings, coordinating issue resolution between engineering and client-facing teams.
- Acted as liaison between technical and client stakeholders, ensuring clear communication, accurate requirements capture, and timely delivery aligned to ZCCM-IH's operational standards.

Bank of Zambia Website Upgrade | *Project Support & QA Coordinator*

- Supported UI/UX redesign and feature enhancements; conducted usability testing and collaborated with developers to optimise navigation, accessibility, and content presentation.

Securities and Exchange Commission Zambia – Platform Revamp | *Project Coordinator & QA Tester*

- Coordinated platform revamp with engineering and client teams; conducted QA testing, issue tracking, and compliance-aligned delivery through structured client reporting.

Lusaka Securities Exchange (LUSE) – Platform Enhancement | *Project Support & QA Coordinator*

- Assisted integration and QA of new platform features; conducted scenario-based testing across devices and produced structured progress reports.
